The Virtues of Mendacity Martin Jay

when michael dukakis accused george h w bush of being the joe isuzu of american politics during the 1988 presidential campaign he asserted in a particularly american tenor the near ancient idea that lying and politics and perhaps advertising too are inseparable or at least intertwined our response to this phenomenon writes the renowned intellectual historian martin jay tends to vacillate often impotently between moral outrage and amoral realism in the virtues of mendacity jay resolves to avoid this conventional framing of the debate over lying and politics by examining what has been said in support of and opposition to political lying from plato and st augustine to hannah arendt and leo strauss jay proceeds to show that each philosopher s argument corresponds to a particular conception of the political realm which decisively shapes his or her attitude toward political mendacity he then applies this insight to a variety of contexts and questions about lying and politics surprisingly he concludes by asking if lying in politics is really all that bad the political hypocrisy that americans in particular periodically decry may be in jay s view the best alternative to the violence justified by those who claim to know the truth
