jul 12 2016 but what i would like to do is to apply nocache 1 to every url related to the site including the assets like style css so that i get the non cached version of the files

the list is just examples of different techniques it s not for direct insertion if copied the second would overwrite the first and the fourth would overwrite the third because of the equiv declarations

i don t find get the practical difference between cache control no store and cache control no cache as far as i know no store means that no cache device is allowed to cache that response in the

our investigations have shown us that not all browsers respect the http cache

directives in a uniform manner for security reasons we do not want certain pages in our application to be cached even

ok even if you aren't using express what essentially needed is to set the nocache headers in middleware otherwise you can set those headers in any way that works

jun 26 2009 the header cache control max age 0 implies that the content is considered stale and must be re-fetched immediately which is in effect the same thing as cache control no cache
