international contributors provide the first examination of the growing subject of regional knowledge economy development illustrated by data and stylized accounts the international contributors chart the evolution of knowledge economies questioning the way in which they work and criticize accepted theories and inform how places can cope in the knowledge economy based in concept on cooke s knowledge economies routledge 2002 regional development in the knowledge economy is a well grounded work exploring this increasingly important theme with relevance to innovation systems and related economic development literature

didaktik and curriculum in ongoing dialogue revives the dialogue between the continental european didaktik tradition and the anglo saxon tradition of curriculum it highlights important research findings that bridge cultural differences and argues for a mutual exchange and understanding of ideas through analyses of shared conditions and cultural differences the book invites a critical stance and continued dialogue on issues of significant importance for the current and future education of children and young people it combines research at empirical conceptual and theoretical levels to shed light on the similarities between the didaktik and anglo saxon educational traditions calling for a comprehensive understanding of teaching and a renewed focus on content and knowledge addressing theoretical issues within contemporary educational scholarship the book will be of great interest to academics researchers and post graduate students in the fields of curriculum studies education theory and comparative education the open access version of this book available at taylorfrancis.com/books/e/9781003099390 has been made available under a creative commons attribution non commercial no derivatives 4.0 license

the relevance of contextual perspectives in religious education has been growing for the last decade it has been central to the european network for religious education through contextual approaches enreca the research network that has produced the

present book several members of the network have contributed to the theoretical and empirical development of contextual approaches in different publications but for the first time this has been the focus of an entire collectively produced volume the history of the book dates back to research seminars in 2009 and 2010 and is based on the discussions in the seminar the chapters have been developed through a process of critical examination through this process we believe to have produced a coherent and also comprehensively rich book dealing with the issue of context as a challenge and also a stimulus to religious education research and practice the chapters are presenting both empirical research and scholarly investigation into methodological and theoretical dimensions taken together we hope that this book will contribute to the further development of contextual thinking in religious education research or aim has not been to answer all questions but rather to pose questions and to complicate things in order to enrich the academic field of religion in education

cybersemiotics not only builds a bridge between science and culture it provides a framework that encompasses them both

what have international relations mergers and cross discipline innovation got in common they share a dependence on the ability to create mutual understanding between people from different cultural backgrounds as organisations become more global and innovative development more urgent developing the skills to get the best from difference becomes a necessity rather than an option cultural intelligence ci is a progressive approach to thinking about culture that aims to provide the reader with a better understanding of what goes on when people with different cultural backgrounds meet including the emotional drivers and irrational reactions it introduces a way of thinking about culture as a dynamic and socially constructed phenomenon rather than a fixed set of rules and suggests ways to benefit from cultural complexity using it as a resource and route to innovation cultural intelligence is for leaders and specialists who have a commitment to bridging and benefiting from differences and who are
