document from the year 2009 in the subject history america university of bremen language english abstract the emergence and expansion of rastafarianism has been a subject for some scholarly study in the caribbean the movement has flourished in due process as an outlet to a huge social and psychological confusions and decades long conflicts inside the movement and society of the islands to many sociologists it is the inevitable consequence of africans in diaspora people seeking to define their own identity and psychological needs it is a movement created not by a revolution but out of confusions and in search of their roots with a black god on the top rastafarianism presents a mixture of politics and theology that has emerged out of its formative years as they call it in the babylon in creating their own religion the rastafarians depend not only on the historical social or empirical experience of african descendants in the diaspora but also for their own analysis to determine an active plan for liberation regardless of other social norms they draw on the transcendental sources of human sensibility theocracy and imagination for as persons who see themselves to be persecuted wronged and deprived to be all but trapped in a situation of persistent material poverty including cultural degradation the only way they see to get out of this situation babylon is through an apocalypse from the early christian history we know that small groups who have worshipped false gods or established their own temples never succeeded and their religions have corroded including their followers however it seems different with the rastafarians because their movement is growing stronger speeding in almost all the continents this book is in part a revised version of both books babylon muss fallen germany 1989 and the rastafarians in search of their identity puerto rico 1985 and in part a contribution of rastafarian elders women activists and musicians

this book is a historical study of the rastafarian movement and its changing relationship with the wider jamaican society it is an account of a people s dream of salvation in zion and their quest for recognition in babylon of repeated failures of prophesy and unshakable faith in the power of the almighty of unconcealed hatred and growing admiration of persecution and shrewd political manipulation an account of a movement s worldwide appeal and its inevitable decline in jamaica back cover

contains over seven hundred entries on african american folklore including music art foodways spiritual beliefs and proverbs

rastafari practitioners have continually resisted social sciences definition of what outsiders called a millenarian movement they maintained against these efforts of categorization that rastafari as a lived and living philosophy combines ancient roots with ever emerging routes these historical dynamic and creative dimensions challenge any

homogenizing attempts to freeze the movement in time and space african origins are as important as diasporan experiences for rastafari in the manifold struggles to downstroy slavery and oppression but the strong universal appeal towards the realization of equal rights and justice implodes analytical and practical limitations of a black atlantic culture this volume brings together contributions from well known rastafari practitioners and social scientists as a counter to the unilateral politics of outside definition identification and misrepresentation they discuss rastafari as an experimental philosophy its historical and contemporary global culture dimensions and its contribution to issues such as decolonization reparation and repatriation

rastafari is one of the most significant yet least understood new religious movements in the twentieth century originating in jamaica in the 1930s it has evolved into a popular international phenomenon yet scholars have continued to view rastafari in a marginal way as an other worldly fragile or avant garde social emergent this book argues rather that rastafari represents a transformative consciousness of i sight which is paradigmatic of a new social ethic this ethic reflects a distinctive self understanding i n i lifestyle livity and center of value ethiopia the author is the first researcher to interpret rasta poetry and song lyrics in relation to systematically constructed concepts of jamaican religion and culture analyzing the meaning of key symbols in a wide cross section of dub and other rasta poetic expressions in the past quarter century he explains many of the ambiguities and inconsistencies in the previous scholarship on rastafari as an interpretive sociological account of rastafarian ethics the book should be of interest to students and scholars in cultural analysis caribbean studies new religious movements and ethics as well as students of english literature and aesthetics
