bachelor thesis from the year 2021 in the subject agrarian studies kwame nkrumah university of science and technology kwame nkrumah university of science and technology course bsc agribusiness language english abstract increasing demand on water resources reduced land water availability and concerns over food security have spurred the evolution of many innovative and complex food production aquaponics is known to be a productive innovative and sustainable fish and vegetable production system that is revolutionizing agriculture in the face of drought soil fertility losses and climate change it is an advanced aquaculture agriculture system expected to improve food security in developing countries however as an emerging technology there is very limited information on the system in ghana questions about the financial viability ecological and socio economic sustainability of aquaponics are answered in this comprehensive review this study considers aquaponics projects in ashanti region looks at the technology the type of fish and plant yields and juxtaposes the technology within best use practices to make recommendations that will inform evidence based policymaking and highlights the system s contribution to improving food security in the ghana this study assessed the financial viability of the aquaponics system using data obtained from aquaponics farmers in the ashanti region the initial investment revenues benefits cost ratio bcr net present value npv using 5 years internal rate of return irr payback period and accounting rate of return arr were modelled to determine the financial viability of the aquaponics system the result indicated that aquaponics system operation is financially viable two fish species catfish and tilapia were considered for this study due to consumers preferences the most pressing constraint in the study area is high feeding cost followed by power fluctuation and high mortality rate as the least constraint this study serves as a model for promoting a viable and sustainable unconventional food production system to attain food security and local economic development in ashanti region

since the outbreak of the 2008 financial crisis european union eu institutions and member states have engaged in a major effort to repair the architecture of economic governance of the european economic and monetary union emu this book takes as its starting point the unclear notion of financial stability which only recently has received a more detailed legal analysis it examines the evolution of the concept of financial stability during the financial crisis and provides a conceptual framework in order to demonstrate that financial stability has become a foundational objective in europe and has set a new normative framework in eu law and policy arguing that financial stability is a foundational objective in eu law and policy based on certain normative instruments this ground breaking book provides an in depth and original understanding of the

newly developed framework to attain supranational financial stability in its analysis of the legal implications of these new instruments the study examines topics and issues such as the following the concept and normative instruments of financial stability at european level the renewed economic governance in europe the financial assistance mechanisms developed in europe the new regulatory environment for banks at european level the single supervisory mechanism and the role of the european central bank ecb therein and the new framework for banking resolution with specific focus on the single resolution mechanism the author shows in detail how an appropriate level of supranational regulation supervision burden sharing and rescue measures strengthen financial stability thereby the book will appeal to officials in eu institutions and agencies as well as lawyers and academics in eu law and in banking financial law to gain a clear understanding of role of financial stability and its normative instruments in eu law and policy gianni lo schiavo is currently working as a lawyer at the ecb he obtained a phd in eu law at king s college london and has written numerous articles and chapters in eu administrative law eu financial banking law and eu competition law

seminar paper from the year 2016 in the subject economics macro economics general grade 2 0 university of cologne course seminar macroeconomics language english abstract at least since the start of the last financial crisis in 2007 the analysis of financial stability is a broadly investigated field of research macroeconomic as well as microeconomic models try to evaluate the effects of distortions liquidity shocks substantial losses on equity good markets on the financial markets to the stability of all or some areas of the economy macroeconomic models mainly evaluate the impacts of such disruptions to benchmarks like gdp unemployment or international trade and give recommendations regarding how institutions central banks governments should react as blaug indicates classical neoclassical and new classical models can be distinguished in this context in contrary microeconomic models are trying to quantify the welfare effects of such events on the level of individual economic participants like households firms or banks most of this literature measure such losses via real term variables for example real wages or real consumption within such models this causes instability on the banking financial sector due to crashes in equity or bank runs just a small group of younger literature such as carletti et al 2009 or gersbach 2012 examines the question whether modeling nominal but non contingent contracts instead of real ones improve financial stability in theory among this literature the present article money financial stability and efficiency written by franklin et al 2014 can be found the authors consider a standard banking model with aggregate return risk aggregate liquidity risk and idiosyncratic liquidity shocks the aim of this term paper is to briefly describe relevant model specifications and main assumptions of the underlying model secondly main findings and their implications regarding the proposed research question will be presented finally this term paper will complete with some critical reflections about the

applicability of the model in theoretic and empirical research
